

Vision Therapy Assistant Needed

Join our practice as a Vision Therapy Assistant – we are willing to train!

Sky's the Limit Vision Therapy (associated with Vision Source of Colby) is seeking a Vision Therapy Assistant. We are a growing therapy practice in need of an energetic person who is willing to work with children and adults. This position is part-time, averaging 16-24 hours each week. Candidates seeking full-time employment may be considered for a dual role as both Vision Therapy Assistant and an Optometric Assistant (please see Optometric Assistant job description).

What is Vision Therapy?

Vision Therapy treats visual problems that cannot be helped with glasses or contact lenses alone such as crossed/lazy eyes, binocular disorders, eye focusing disorders, tracking dysfunctions and visual information processing.

What makes a great Vision Therapist?

- Having a passion for helping children and adults reach their potential
- Strong communication skills – clearly communicating exercises and home assignments
- Strong organizational skills

What experience is required?

We are willing to train strong candidates. Helpful assets include Associates degree or higher in education and/or background in similar field (paraprofessional, child development, special education, teaching, etc.)

Job Responsibilities

- Direct patient care with vision therapy evaluations and sessions
- Electronic health record charting for evaluations and sessions
- Scheduling evaluations and sessions
- Assisting with office duties such as making copies and scanning documents
- Assisting with eye examinations

We are very busy taking excellent care of our patients, so please no phone calls during business hours. Please email a cover letter and resume along with three work references to HR Manager at bcejda@eyeclinic.com (put "Vision Therapy Assistant" in the subject line). Receipt of resume will be acknowledged by return email. All inquiries will be kept strictly confidential.
